RISE OF THE RIVERS.

THE NATURAL RESULT of full channels in our rivers has already been felt in commercial circles. Trade has considerably brightened and money become a shade easier, with the prospect of a plethora after the banks shall have made their January statements. The coal men have succeeded in getting out the vast floating fields of lump and slack in which so much of their capital had been buried, and, within a few days, will have received in cash the returns for their precious black diamonds. Nor have the coal men alone taken advantage of the present rise in the rivers to get their stock to the lower markets for conversion into cash. Every boat which left the wharf was weighed down with iron, nails, agricultural implements, glass, and hundreds of other articles of Pittsburgh manufacture, sent out to find market by shrewd dealers who appreciate the cheap transportation facilities occasionally afforded by the rivers.

While the Monongahela has been doing its full share of labor in helping the mineral wealth dug from its banks to the markets, its swifter neighbor, the Allegheny, has gladdened the hearts of the oil dealers with large invoices of petroleum which had been awaiting shipment for many months. During the present brief swelling of that river there will be brought into the city more oil than could for weeks be transported over the railway which follows its course into the heart of the oil region.

From the new life and impetus given trade by the rise in our rivers and the brilliant prospects for good times a few weeks hence, we of Pittsburgh should be as gratified for the Christmas present of rain from heaven, as they down at Cincinnati and Louisville, who are thanking God that they have been delivered from the anticipated distresses of a fuel famine.

IN several of the northern counties memorials to the Legislature are in circulation for signature, asking for the establishment of a State Lunatic Asylum for the accommodation of that section. Towanda and Williamsport are each spoken of as a suitable location for it.

In Berks county a similar movement has been commenced for an Asylum to be located at Reading, and to accommodate perhaps a dozen of the adjoining counties.

It is very probable that two additional institutions will ultimately be required, at economy and utility alike protest against small establishments of this order.

PASSENGERS now go from Chicago to Cheyenne without changing cars, a temporary bridge having been thrown across the Missouri at Omaha. Distance, 1,000 miles.

THE Chicago Manufacturers, at their meeting on Friday night, fully endorsed the action of the Cleveland Convention.

THE suggestion is made that Mr. Vessenden is the strongest man the Republicans can nominate for President.

Heroism.

An instance of great heroism on the part of a young man, Captain William Jackman, is related in the Newfoundland papers as having occurred at Labrador during the violent hurricane of October 4th last, of which we have already before spoken. So extraordinary is the story that were it not vouched for by the best of authority it would appear incredible. A vessel called the Sea Flipper had struck on a reef near a place called Spotted Islands, Labrador, at which there were no residents. This young man, Captain Jackman, being providentially in the neighborhood, witnessed the vessel striking, saw her fall asunder, with a number of persons on her deck and rigging—twenty-seven, as it afterward appeared. To save some of these poor creatures, Mr. Jackman cast himself into the sea and swam to the wreck, distance a hundred fathoms or more from the shore. The hurricane was then at its height, accompanied by snow. Eleven times did this heroic man swim between ship and shore, each time bringing a man from the wreck and landing him in safety.

By this time persons from a neighboring settlement had arrived with ropes, and ten trips more did the noble sailor make, conducting all the survivors in safety to the shore. It seldom falls to our lot to relate more heroic conduct. Captain Jackman is said to be an modest as he is brave, and when spoken to on the subject will not allow that he did anything more than his duty. Application is to be made on his behalf, by the magistrate of the district, to the Royal Humane Society for its gold medal, which will undoubtedly be promptly granted.

ow Water at Niagara Falls—Remarkable Phenomena.

The Buffalo *Courier* says: "A letter from Niagara Falls gives the following description of the remarkable phenomena of low water at the Falls and elsewhere. Thursday last was a wonderful day in the annals of Niagara Falls. The strong easterly gales set the waters of Lake Erie westward, leaving the Niagara river and its tributaries lower than ever ever known before. Buffalo Creek was so low that all the rocks in it were rounded, and Niagara Falls was a river compared with its native grandeur. The best of the American branch was so denuded that you could travel in the rocky bed without wetting your feet, and mysteries that were never before revealed came to light on that day. Rocks that heretofore were invisible appeared in their full growth deformity upon the surface, and great was the consternation among the finny tribes. The Three Sisters were accessible to foot passengers, and many traversed where human foot had never trod, with perfect impunity and dry feet. Below the falls was the wonder of wonders. The water was full twenty feet lower than usual, and the oldest inhabitant gazed in wonder at the grand transformation. Near Suspension Bridge the celebrated rock at Withers's mill, upon which a drowning man caught and was rescued several years ago, which barely projects a head above the water, was laid bare twenty feet above the surface."

—In New Orleans, late at night, a colored man rejoicing in the sobriquet of Sills came to grief in an unpremeditated manner. For purposes of friendliness and to testify his respect, he paid a visit to a neighbor's kitchen. No one was in a welcome him, for the hour was late, Sills was hungry. The room was dark but Sills could feel. Suddenly his hand came in contact with an iron substance; Sills thought it was a new spoon; he seized the handle and lifted it to his nose—it had a delicious flavor—there was roast meat there, and well roasted, too. Sills pressed his nose closer, and a touched the meat—there was a sudden click, a smother-ed yell of pain and terror; for Sills' nose and chin were clamped by the piercing teeth of a steel trap. Sills could not get away—the trap was fastened to the wall by a chain. Sills stamped and roared—his agony became intense—his ands thundered on the table—his smothered screams grew terrible. At last assistance came; and in the morning Sille entered into an explanation before the recorder.

—Several shocks of earthquake have recently been felt at Resina, Napies. For the last two days the volcano has been vomiting torrents of lava, which no longer descend in a single stream toward Ottajano, but in several currents, which cover the cones on the side of the way. Two more considerable streams are threatening Torre del Greco and Resina. The earthquake has not done much damage at the latter place, but the miracles of one house fell in, and the inhabitants had to escape by the windows of the upper stories.

—Garroting is again coming into vogue in London. The London press contains letters describing garroting robberies and fairbreadth escapes, and lamenting the want of vigor among the police.

FOREIGN CLIPPINGS.

—Late advices from St. Thomas report a new obstacle to the annexation of St. Thomas, in the objection of the people of that island to saddle themselves with United States import duties, a little shinning trade among the adjacent islands being the source of business of the majority of the people.

—The end of the Paraguayan war is announced, the Paraguayans, completely exhausted, having asked for a suspension of hostilities. After a contest of two years and a half, which has frequently been very bloody, this war is happily at an end, and with the restoration of peace, of which there is so fair a prospect, it is stated that the free navigation of all the Brazilian waters is to be opened to the world.

—Mdlle. Adelina Patti recently gave a dinner party in Paris. Among the guests were Mustapha Pasha, Khalil Bey, Prince Poinatowski, Baron de Thal, wife and daughter, etc. The dinner was followed by an evening party, at which were present Dr. Sims, the eminent American surgeon, and his pretty daughters; Mr. Whitehurst, Marquis de Caux, Signor Cardini, wife and daughter, Signor Tagliafico, wife and daughter, etc.

—An accident, which might have proved very disastrous, occurred at Surrey Canal, London, on Sunday night, December 17. A caisman mistook a piece of rising ground for a bridge, and drove his cab into the water. Inside were a gentleman and two ladies, who narrowly escaped drowning, but were ultimately rescued by the bystanders. The ladies are very ill, but it is providential that the accident had no worse issue.

—A singular case of unsuccessful suicide occurred at Lyons, France. A man named Mouriceau, a carpenter by trade, depressed, as is thought, from having dissipated a legacy which he had received, fired four shots from a revolver under his chin, the bullets lodging in the upper part of the larynx. He was taken to the hospital in a condition of great danger, but his death is not yet announced. To make sure of his purpose he had loaded three revolvers.

—The Government of Austria had proposed to that of Italy a convention of extradition for deserters and non-appearing conscripts. The Cabinet of Florence declined the offer. Consequently, says the *Debate* of Vienna, Italians of those classes will not be treated in Austria as the principles admitted with regard to deserters, but after those which regulate the residence of foreigners. Instructions in this sense have been given to the Austrian authorities.

—The Marquis d'Ester, formerly an officer of the French Navy, director of the arsenal which is being founded at Yokohama by the Japanese Government, arrived at Havre, France, recently, to superintend the loading of a French vessel, the Fabius. Her cargo will consist of numerous machines for working metals, an apparatus for masting vessels, and some improved cannons, with their supplies of cylindrical and conical shot. The vessel in question will very speedily leave for Yokohama and Pon-Tcheou.

—A murder attended with painful circumstances, has been committed at Ledeve, France. About six weeks since, a man named Mouriceau, aged sixty one, who owed a sum of 100 fr. to a neighbor, a grocer, named Combes, committed suicide from despair in consequence of his creditor having commenced judicial proceedings to enforce payment. Three days back the son of the deceased, aged twenty-four, a stoker on the Lyons Railway, returned home, and, after remaining a short time with his mother, went to the shop of Combes and shot him through the head with a pistol, killing him on the spot. He then made off, and has not since been captured.

—It is stated that an English lady married to an Italian nobleman, the Count Cesarini Sforza, has been expelled the Papal territory under circumstances which seem extraordinary. The Duchess's villa at Rome was sacked by the Antibes Legion, it is said, although by way of protection she had hoisted the English flag over its gates. Having lodged a complaint with the French authorities at Rome against the outrage, she was ordered to leave Rome within twenty-four hours. Legally, of course, she had lost her nationality by marrying a subject of the Pope, but this could hardly be urged as an illustration of the *status quo* which France wishes every power in Europe to guarantee.

—Siberia appears to be the great source of the world's supply of ivory. New Siberia and the Isle of Lakon are for the most part only an agglomeration of sand, ice and elephants' teeth. At every tempest the seacasts ashore fresh heaps of mammoths' tusks, and the natives there are able to drive a profitable trade in the fossil ivory thrown up by the waves. During the summer immmerable fishermen's barks direct their course to this isle of bones, and in winter immense caravans take the same route, all the convoys drawn by dogs, returning charged with the tusks of the mammoth, each weighing from one hundred and fifty to two hundred pounds. The fossil ivory thus obtained from the frozen North is imported into China and Europe, where it is employed for the same purposes as ordinary ivory furnished by the elephant and hippopotamus of Africa and Asia. The isle of bones has served as a quarry of this valuable material for export to China for five hundred years; and it has been exported to Europe for upwards of one hundred years. But the supply from these strange mines remains inexhaustished. What a number of accumulated generations does not this profusion of bones and tusks imply?

—The London newspapers report that in the Episcopal Church of England a project is on foot for the establishment of a Southern University in the Southern States, and the assistance of English churchmen in attaining that object has been sought by a published circular. It is signed by the London *Advertiser* that the movement is not a sectional one. It is intended as an offering to the whole American Church, and not to the Southern States alone, or to the Northern. Nor does it proceed from any single party in England—both High Church and Low Church are associated in it. All the archbishops and most of the bishops, all the colonial metropolitans and many well known leaders of church opinion approve of it, and have expressed their willingness to co-operate. Several eminent statesmen, both conservative and liberal, have promised to assist. Among the subscribers are Mr. Gladstone, Mr. Gaythorne Hardy, Earl Stanhope, the Earl of Shaftesbury and Lord John Manners. Upon the committee are the Earl of Carnavon, Lord Cranbourne, Earl Nelson, the Archbishop of York, the Bishop of Oxford, Mr. Beresford Hope and Mr. Gladstone. There certainly could be no better representation than this of different sections of churchmen. The feeling which has led to the movement is the desire to draw closer the bonds of sympathy between England and the United States and the English and American Churches. The cordial reception given to the American bishops who attended the Pan-Anglian Synod has already produced very gratifying results, and it is felt that to assist in the establishment, or rather the restoration, of the Southern University, would further strengthen friendship and mutual respect. It will be a pleasing memento of the visit of the American prelates to England."

GENERAL NEWS.

—In Maine the Kennebec journal says that light colored granite has come into vogue, and the quarries of other granite in that State are at present unworked.

—The steamer Nevada, of the North American Steamship Company, recently made the passage from New York to Panama, via Cape Horn, in the short space of 11½ days.

—The New Orleans, Jackson and Great Northern Railroad Company have added two "elegant and luxurious" sleeping cars to their rolling stock and have named them Louisiana and Mississippi.

—The mouth of the Mississippi, it is reported, has been opened by a dredging machine, and a steamer loaded with cotton and drawing eighteen feet water has passed out of the Southwest Pass without touching on the bar.

—By a letter from Madeira it is stated that the grape crop has been gathered, and the yield is estimated at 5000 pipes of 110 gallons to the pipe, which is about the same as last year, though the quality is said to be much better.

—The Boston Journal of Chemistry says that pencil writing may be fixed almost as indelibly as ink by passing the moistened tongue over it. Even breathing slowly over the lines, after writing, renders them much less liable to erase than when not subjected to that process.

—The Tennessee and Pacific Railroad Company has obtained from the State Legislature a grant of $20,000 per mile for the first thirty miles east of Nashville, and $15,000 per mile for the rest of the road. The sum of $200,000 in State bonds is also granted for the building of bridges.

—The ice in the Hudson at Albany is so thick that teams crossed it last week, when heavily loaded, without fear of accident. Teams also crossed at Rhinebeck. At Poughkeepsie the river was frozen over; but it was open at Newburg, though a single cold night, it was anticipated, would close it there.

GREAT BRITAIN.

FENIANS UNUSUALLY ACTIVE.

LONDON, December 28, 1867.—The Fenians seem unusually active all over the country. Nearly every hour in the day dispatches are received by the authorities announcing either a contemplated movement by the Brotherhood or an absolute occurrence.

ANOTHER COUP DE MAIN.

Telegrams of quite a serious nature have been received to-day from Cork giving details of another Fenian *coup de main*. Last night about midnight a large body of men, with blackened faces, stormed Martello tower near Cork. The guard of the tower was overcome and scattered and the victors hastily collected a considerable quantity of arms and ammunition and escaped with their plunder without molestation.

PUBLIC EXCITEMENT.

The late operations of the Fenians have had the effect of rekindling public excitement. Many improbable rumors are afloat, including one that a Fenian cruiser had been seen off the Irish coast and chased away by war vessels.

IMPORTANT ARREST.

A man was arrested in this city last evening on a charge of having fired the fuse which caused the recent terrible explosion at Clerkenwell. It is believed the true culprit has at last been captured.

STILL ANOTHER FENIAN OUTRAGE.

LONDON, Dec. 28.—*Evening.*—Another Fenian outrage was perpetrated to-day at Dublin. An effort was made to fire the general Postoffice by means of Greek fire. The attempt was, happily, frustrated. Beyond the destruction of a few letters no great damage was done.

POWDER MILL BLOWN UP.

A large powder mill at Feversham, about fifty miles from London, was blown up and utterly destroyed this afternoon. Ten persons were killed outright and a large number injured. The cause of the explosion is unknown.

SUPPRESSION OF FENIANS,

LONDON, Dec. 29.—The London *Observer* says: No new or extraordinary powers will now be asked of Parliament by the Government for the suppression of Fenian plots or disturbances.

DECREASE OF REVENUE.

It is expected that owing to the prostration of commerce and trade during the past quarter of a year, the January returns will show a serious decrease in the amount of receipts from revenue during that period in the United Kingdom.

SPAIN.

ARRIVAL OF MAXIMILIAN'S REMAINS—A GRAND OVATION TO THE CORTEZ.

MADRID, Dec. 28.—The Austrian frigate Navaar, in command of Admiral Tegethoff, having on board the remains of the late Archduke Maximilian, arrived at Cadiz yesterday afternoon.

Sessions of the Cortez commenced yesterday. In the usual speech from the throne Queen Isabella pledged the support of the nation to the Pope for the preservation of his temporal power.

FRANCE.

PASSAGE OF THE ARMY BILL.

PARIS, December 27.—*Evening*—In the Corps Legislatif to-day the bill for the reorganization of the army was passed, after some amendments. M. Rouher proposed nine years' service instead of eight, which, after a sharp contest, was carried. There were eighty-one opposing votes. In his speech on the proposed amendment, he called attention to the armament of neighboring powers and supported his plan as the only one practicable. The bill is certain to become a law.

ITALIAN REPUDIATION.

PARIS, Dec. 28.—The Paris *Constitutionele* to-day denounces the repudiation of Italy.

PARIS, December 29.—The Papal Government offers to pay the interest on those Italian bonds which represent the old debt of the Pontifical States annexed to Italy. The Italian Parliament recently refused, by a decisive vote, to pay coupons on those bonds.

ITALY.

SERIOUS POLITICAL AGITATION.

Dispatches from Italy represent that there is much political agitation in Northern and Southern Italy. In Naples and in cities of Piedmonte the excitement is dangerous, and fears are entertained it may culminate in a rising against the authority of the Government.

RUSSIA.

CONFERENCE ON THE EASTERN QUESTION.

A number of eminent Russian statesmen and diplomats have met in St. Petersburg, and are holding a Conference on the Eastern question.

CHINA.

EXPORTATION OF TEA.

LONDON, December 28.—Commercial advices from Shanghae give the total exports of new crop teas to first of December at ninety million pounds. Green tea at Shanghae was active and firmer.

ARRIVED OUT.

SOUTHAMPTON, Dec. 29.—The steamship Bernusia, Capt. Frazer, from New York on the 14th inst., arrived off Cowes at 7 o'clock this evening, and after landing her London passengers, mail and freight sailed again for Hamburg.

LONDONDERRY, Dec. 29.—The steamship United Kingdom, which left New York on the 14th inst., touched at Moville to-day, and after a short stay sailed for Clyde.

FINANCIAL AND COMMERCIAL.

LONDON, Dec. 28.—*Evening.*—Money market quiet and steady. Consols closed at 92½@92¾, account 92¼@92 3-5 money. Five-twenties 72a72¾, Illinois Central 88½, Erie 48½.

LIVERPOOL, Dec. 28.—*Evening.*—Cotton closed quiet; sales 10,000 bales; trade report rather more favorable, though the prices are unaltered. Breadstuffs closed quiet and steady. Corn 43s 9d. Wheat 10s per cental for white California; 13s 9d for No. 2 red western. Barley 58 3d. Oats 3s 8d. Peas 46s. Provisions quiet and steady. Lard advanced 3d, but quoted at 50s. Beef 112s. Pork 67s 6d. Cheese 62s. Bacon 41s. Produce dull and steady.

FRANKFORT, Dec. 28.—*Evening.*—5-20s 76¾.

ANTWERP, Dec. 28.—*Evening.*—Petroleum dull, at 45 francs.

PARIS, December 29.—Bourse heavy. Securities of all kinds weak, and rentes declining.

FRANKFORT, December 29.—U. S. bonds quoted to-day at 76¾ to 76¾.

ANTWERP, December 29.—Petroleum market weak; standard white 44 francs 50 centimes.

CALIFORNIA.

Severe Storm at San Francisco—Great Damage Done to Shipping—Advices From Arizona—Attacked by Indians—A Destructive Flood.

[By Telegraph to the Pittsburgh Gazette.]

SAN FRANCISCO, Dec. 28.—The severest storm for many years has prevailed for the past two days. Most of the shipping in the harbor was damaged, and the city suffered to a great extent. Reports from the interior give accounts of the disastrous effects of the storm. Stage and railroad communication are temporarily suspended.

Arizona advices to December 7th say: Gen. Strong has been relieved of the command of the District of Arizona, and was ordered to assume command of the military operations of Nevada. Gen. Crittenden is named as his successor. The Pohuit Indians submitted to the military authorities, and returned over their arms. Gen. Palmer, of the Union Pacific Railroad Survey, was attacked by Indians northeast of Prescott, without fatal results. The territorial officers left Prescott for Tucson—a new capital. Mining news encouraging.

SAN FRANCISCO, December 29.—Reports from Sacramento Valley indicate as the destructive flood as in 1861-62. The whole valley is submerged and travel suspended in every direction. Several railroad accidents, caused by the washing away of the track, resulted in loss of life. The American river is higher than ever known before. The levees at Sacramento have withstood the flood, and no fears will be hereafter entertained for the safety of the city. The levees at Marysville have broken away and the the greater part of the city is overflowed. The roads in the Sierra Nevada mountains are rendered impassable for animals. The mails and express matter from Virginia city and other places in Nevada were carried by men on foot. Such a disastrous storm was never before known in the mountains.

The ships Derby and Calabar, which arrived yes erday, report severe shocks of earthquakes off Cape Horn, on October 27th, lasting thirty hours.

First Parliament Of Ontario—Lieut Governor's Address—The Quebec Parliament.

[By Telegraph to the Pittsburgh Gazette.]

TORONTO, December 28.—The first Parliament of the province of Ontario opened yesterday afternoon. John Stevenson was chosen speaker.

TORONTO, Dec. 28.—The Lieut. Governor addressing the Legislative Assembly to-day, alluded to the union and new political era upon which the province was entering. The hope was expressed that the resources at the disposal of the Legislature would be sufficient for all purposes. The best means of husbanding and increasing the resources was advertised. The encouragement of encouraging emigration and the occupation of the public lands of the Province, by the enactment of a liberal homestead law and the early sale of the lands. Large grants of land to *bona fide* settlers, were recommended.

QUEBEC, December 28.—This afternoon Governor Belleau delivered his speech. He expressed the hope that a sentiment of fidelity to British institutions and devotion to the interests of the Confederation will characterize the first session of the Quebec Legislature. The measures which will come up for legislation were enumerated, comprising laws for the administration of justice, public education, public works, and encouragement of science, letters and arts, the improvement of public domain, including forests, mines and wealth, the development of emigration and colonization.

NEW ORLEANS.

Official Acts Legalized—Reconstruction Opinions of the Press.

[By Telegraph to the Pittsburgh Gazette.]

NEW ORLEANS, December 28.—General Hancock, in special order No. 220, legalizes the official acts, of R. L. Shelby, who was appointed clerk of the Second District Court by General Mower and removed in June last by Hancock, reinstating the former incumbent.

The following was adopted by the Convention as the second article of the Constitution: "All persons, without regard to race, color or previous condition, born and naturalized in the United States, and residents of this State one year, are citizens of this State, and shall enjoy the same civil, political and judicial rights and privileges, and be subject to the same pains and penalties."

The Convention adjourned till Monday. To-day was the twenty-sixth day of the session.

A Republican meeting was held tonight in Lafayette Square, under the auspices of the Young League. It was addressed by Mr. Conway and several members of the Convention. About one thousand persons were in attendance. The meeting was quiet and dispersed at half past ten o'clock.

ALABAMA.

Republican Nominating Convention—A Negro Shot—Expulsion from the Council.

[By Telegraph to the Pittsburgh Gazette.]

MONTGOMERY, ALA., December 28.—The County Republican Nominating Convention to-day nominated eight negroes and sixteen whites,—four whites and two negroes for the State Legislature. The majority of the whites are Northern men and connected with the Freedmen's Bureau.

A negro was shot dead yesterday on the plantation of Mr. Merriweather, near this city, for declaring himself opposed to the Union League.

The Montgomery Council, which claims to be genuine, has expelled J. F. Keffer, a leading radical, for dishonorable conduct. Keffer declares the action a war of races. Keffer has a League which he claims to be genuine. The whole affair will be laid before the Grand Council for its action.

BOSTON.

Another Clerk Disappears With Eight Thousand Dollars—The Shawmut Bank Defalcation.

[By Telegraph to the Pittsburgh Gazette.]

BOSTON, December 28.—A clerk named Robert Preston, in the employ of the Howard Mutual Insurance Company, has disappeared with eight thousand dollars in Government bonds.

In regard to the defalcation of the Shawmut Bank, it is now ascertained that the cash of the defaulting teller, Henry, is about five or six thousand dollars, from omitting to credit deposits received, and the balance, twenty-seven thousand dollars in compound interest notes and twenty-seven thousand in bills, is said to have been stolen from the clerk in the bank vault on the day that the defaulter disappeared.

NEW YORK.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, Dec. 28, 1867.

PIKE'S NEW OPERA HOUSE.

S. N. Pike's new Opera House opens January 6th.

MURDERER ARRESTED.

Hugh Danagh, the murderer of Henry C. Orcutt, Sheriff of Kalamazoo county, Michigan, was arrested in this city under another name, as a pickpocket, and having been identified is held for requisition from the Government of Michigan.

PAPAL REGIMENT.

A movement has been inaugurated in this city in favor of raising and equipping a regiment for the Papal army.

WEST INDIES.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, December 29.—Havana specials state that four hundred coolies had arrived at Demarara.

Lord Lyttleton was given a warm welcome by the people of Jamaica.

A tidal wave and volcanic eruption in the sea destroyed several houses on the island of Grenada.

The term of Gov. Walker, of Barbadoes, had expired.

The Legislatures of Trinidad and Antiqua were in session.

Heavy rains in both islands had been beneficial to the crops. Those of Barbadoes are also in a fine condition.

FINANCIAL MATTERS.

The fractional currency printed for the week amounted to $899,000; shipped $858,628, including $58,000 to Louisville. Treasury notes issued, $1,072,000, nearly all to Boston and New Orleans. National Bank notes, $782,000. Fractional currency destroyed, $233,600.

ANOTHER CANDIDATE.

Col. C. W. Moulton, of Cincinnati, has has appeared as a candidate for the office of Commissioner of Internal Revenue.

INTERNAL REVENUE.

The receipts of internal revenue from the 12th of December to this morning are $13,140,000, and the total receipts since July last $98,261,000.

THE POOR.

Liberal subscriptions have been made by the citizens of Washington for the relief of the poor. General Grant has ordered to be turned over for distribution among them about forty cords of refuse lumber, to be used as fuel.

FUNERAL OF GEN. GRIFFIN.

The funeral of Major General Griffin, which took place this afternoon, was one of the finest displays had here for some two or three years. Flags were displayed at half mast throughout the city. The body of General Griffin and also that of his son, arrived this morning, and laid in state at the depot until twelve o'clock, when the procession formed, consisting of about two thousand infantry, and several companies of artillery and a large number of carriages, and proceeded to Oak Hill Cemetery, near Georgetown. Several bands of music were in the procession, playing funeral dirges along the route. The two bodies occupied separate hearses, which were handsomely decorated with American flags, and followed with crape. Immediately after was the horse of General Griffin, led by orderlies, with boots reversed, and sword on right side. Gen. Sheridan, alone, along which the procession moved, was densely crowded with people, and it is estimated that about ten thousand persons were present during the procession. Generals Grant, Sherman, Emory, Carr, Ricketts, Hunter, Hardie, Humphrey Rawlins, Augur, Buell, Comstock, and many others were in the procession, and attracted considerable attention. Arriving at the Cemetery the troops were drawn up into line and presented arms, while the bodies were taken in. The bodies were then removed to the Chapel, where Mrs. Griffin, accompanied by Gen. Porter, of Gen. Grant's staff, and a few private friends of the family, had previously arrived. The Episcopal service was read by Rev. Dr. Lewis, and subsequent to the bodies were placed in the private vault, where they are expected to remain.

GENS. ORD AND POPE REMOVED—GENS. MCDOWELL AND MEADE THEIR SUCCESSORS.

The following was issued this afternoon:

[*General Order No. 100.*]

HEADQUARTERS ARMY,
ADJUTANT GENERAL'S OFFICE,
WASHINGTON, Dec. 28, 1867.

By direction of the President of the United States, the following orders are made:

First. Brevet Maj. Gen. E. O. C. Ord will turn over the command of the Fourth Military District to Brevet Maj. Gen. A. C. Gillem, and proceed to San Francisco, California, to take command of the Department of California.

Second. On being relieved by Brevet Major General Ord, Brevet Major General Irwin McDowell will proceed to Vicksburg, Mississippi, and relieve General Gillem in command of the Fourth Military District.

Third. Brevet Major General John Pope is hereby relieved of command of the Third Military District and will report without delay at the headquarters of the army for further orders, turning over his command to the next senior officer until the arrival of his successor.

Fourth. Major General Geo. G. Meade is assigned to the command of the Third Military District, and will assume it without delay. The command of the East will be commanded by the senior officer in it until a commander is named by the President.

Fifth. The officers assigned in the foregoing orders to the command of the military districts will exercise therein any and all powers conferred by acts of Congress upon district commanders, and also any and all powers pertaining to military duty not inconsistent therewith.

Sixth. Brevet Major General Wager Swayne, Colonel of the 45th United States Infantry, is hereby relieved from duty in the Bureau of Refugees, Freedmen and Abandoned Lands, and will proceed to Nashville, Tenn., and assume command of his regiment.

By command of Lieutenant General Grant.

AUTHORSHIP OF THE FAMOUS DENT LETTER.

Parties who have been trying to ascertain the origin of the so-called Dent letter, assert that investigation shows its author to be the writer of an article in the *Galaxy*, to which allusion is made in the letter; that this writer is also an attache of the New York *World*, and penned the articles in that paper commenting on the positions of the Dent letter; and finally, that the writer in the *Galaxy* is the New York correspondent of the Charleston *Courier*, in whose communication to that journal the letter first appeared.

MEXICAN AFFAIRS.

A private letter from Senor Romero, dated December 6th, says that the prospects continue to be satisfactory and he has not changed his opinion that Mexicans are to have permanent peace and a settled Government.

SOLDIERS' PHOTOGRAPHS AT DEAD LETTER OFFICE.

The Postoffice Department has on hand, taken from dead letters which accumulated during the war, more than ten thousand photographs of Union soldiers. Although it is believed many of their relatives would be glad to obtain such pictures, especially of those who have died since the war, were taken, the department has not yet been able to decide upon a plan by which this gratification may be afforded.

THE LICENSE ORDINANCE.

It is understood that only two licenses to sell liquor are to be granted under the municipal ordinance just passed, with the object of testing the constitutionality of the State excise law.

THE DISTRICT COMMANDER.

Gen. Sibley, Colonel of the Sixteenth Infantry, is understood to be temporary commander of the Third Military District, until the arrival of General Meade.

Protection to American Citizens.

[By Telegraph to the Pittsburgh Gazette.]

WORCESTER, MASS., Dec. 29.—A large and enthusiastic meeting was held here last evening to petition Congress to take action for the protection of American citizens in Great Britain. Spirited addresses were made by Mayor Blake and prominent citizens. Resolutions were adopted insisting on the protection of naturalized citizens abroad. Nearly three thousand people were present.

Cutler's mills, at Ashland, were destroyed by fire yesterday morning. The loss is about $20,000; insurance $10,500 on mills and stock. The fire was the work of an incendiary.

MEMPHIS.

Drug Store Destroyed—Two Victims of Judge Lynch Found.

[By Telegraph to the Pittsburgh Gazette.]

MEMPHIS, Dec. 29.—The drug store of R. D. Ward & Co., on Main street, was destroyed by fire this morning. The stock was valued at twenty thousand dollars. Insured in the Hartford Company for seven thousand dollars. Amos Woodruff, proprietor of the building, loses four thousand dollars.

The bodies of two men were found in Horsehatchie river, near the Macon depot of the Memphis and Ohio Railroad, yesterday, in a badly decomposed condition. One was shot through the head and the other through the body. One had red hair, and in the pocket was found a letter from a mother to her son, bearing the address of J. Pratt. Nothing was found to identify the other. They are supposed to have belonged to a band of robbers who, for some months, have infested the neighborhood, and that they had fallen into the hands of Judge Lynch.

MOBILE.

United States District Judge Shot by the District Attorney.

[By Telegraph to the Pittsburgh Gazette.]

MOBILE, Dec. 28.—District Attorney L. V. B. Martin met Judge Busteed, of the United States District Court, this morning, and accosted him saying:

"Judge, will you allow that indictment against me to take its course?"

Judge Busteed replied, "Sir, the law must take its course."

Martin then drew a revolver and fired on the Judge, who fell to the pavement, having received two shots, one below the breast bone and another in the right leg. Martin had been indicted by the Grand Jury for revenue frauds and extortion. He is now in jail. Judge Busteed's wounds are not considered mortal.

THE ANGOLA DISASTER.

The Cause Discovered.

[By Telegraph to the Pittsburgh Gazette.]

BUFFALO, N. Y., Dec. 29.—From the investigation made by the Coroner's jury, on Saturday, of the trucks of the cars thrown from the track at the Angola disaster, it is established that the rear car was not thrown from the track by the wheel breaking, but by the axle of the Cleveland and Toledo car, the rear coach being sprung, thus throwing the wheel an inch and a half out of its proper position. This fact will be officially brought out before the Coroner's jury to-morrow. No compromise cars were attached to the train.

HAVANA.

American Consular—Orders Concerning Thieves, Brigands, &c.

[By Telegraph to the Pittsburgh Gazette.]

HAVANA, December 29.—Mr. Tarterey has taken possession of the American Consulate, where he succeeds Mr. Savage as Consul General of the United States in Havana.

Captain General Lersundi has issued energetic orders against thieves, brigands and slavers.

GEORGIA.

A Negro Burned to Death.

[By Telegraph to the Pittsburgh Gazette.]

AUGUSTA, Ga., December 28.—A negro who raped a white girl on the public road near Louisville, Jefferson county, Saturday last, was burned on Monday, tied to a stake and witnessed by a mixed crowd of whites and blacks.

SOUTH CAROLINA.

The Convention Carried—Time and Place of Meeting.

CHARLESTON, Dec. 29.—Gen. Canby has issued an order officially announcing that the Convention has been carried in the South Carolina election. He appoints Charleston as the place, and January 14th as the day for its assembling.

Berdan Rifles and Gatling Cannon for Russia and Prussia.

[By Telegraph to the Pittsburgh Gazette.]

HARTFORD, CT., December 29.—The Russian Government has made a contract with the Colt Fire Arm Company, of this city, for the manufacture of thirty thousand Berdan rifles, the contract to be filled in eighteen months. One hundred Gatling guns of similar calibre have also been ordered by the Prussian Government, to be built by the Colt Company, and the Russians are likewise to have some built.

Flour Mills and Grain Elevator Destroyed by Fire.

[By Telegraph to the Pittsburgh Gazette.]

FARMINGHAM, MASS., December 28.—The extensive flour and grist mills, together with the large elevator and all the stock therein, belonging to Arm Coburn, were entirely destroyed by fire last night. These mills were known throughout New England, and the elevator is said to have been of greater capacity than any other this side of Albany. Loss not ascertained.

Ice and Drift at Buffalo.

[By Telegraph to the Pittsburgh Gazette.]

BUFFALO, December 29.—Ice and drift wood, from Upper Buffalo Creek, passed through the harbor last night and this morning with great force. No damage has been done. The weather is remarkably mild, and the ground has been bare of snow since the 23d.

NEWS BY TELEGRAPH.

—Obadiah Valentine, a conductor on the Flushing Railroad, New York

The Pittsburgh Gazette

MONDAY, DEC. 30, 1867.

AS THE Republican National Convention will be held in May, it is probable the State Convention in Pennsylvania will be held as early as March.

TWENTY-FIVE of the Republican journals published in the northern and northwestern portions of Pennsylvania have expressed a preference for Mr. Galusha A. Grow, as the candidate for Vice President. Able, experienced, clear-sighted, true, he commands the popular confidence.

RAILROAD CONSOLIDATION.

Arrangements have been made for the consolidation of three Pennsylvania Railroads. 1. The Oil Creek road, extending from Corry to Petroleum Center, a distance of thirty-eight miles. 2. The Farmers Road, extending from Petroleum Center to Oil City, a distance of eight miles. 3. Reno, Oil Creek and Pithole road, extending (up Cherry Run) nineteen miles.

This consolidated line will be laid throughout with both broad and narrow guage, so as to afford connection with all the roads pointing towards New York. It will connect with the Philadelphia and Erie road both at Warren and Corry; with the New York Central at Corry by means of the Buffalo Cross Cut, which runs from Corry to Brockton on the Lake Shore road, and so on to Buffalo; and with the Atlantic and Great Western road at both Oil Creek and Corry, and by that road connecting with the Erie Railway at Salamanca.

The arrangement is that the consolidated road shall receive and deliver freights from and to all other roads without discriminations for or against any. The consolidated line have control of a very large amount of oil, which is a fair basis for a profitable business.

This consolidated line also connects at Oil City with the Allegheny Valley road, leading down to Pittsburgh. Of course, this opens all the connections beyond Oil City for operations to and from Pittsburgh.

PARTON'S PITTSBURGH.

We like Mr. PARTON'S biographies and descriptions of cities. They are readable and instructive. They are not always accurate. He, like other men, has his likes and dislikes. His prejudices affect his writings. He sometimes draws on his imagination to make art his story. Then much depends on his source of information. He says what he sees and hears. What he does not know he cannot be expected to tell. Hence a description may be correct so far as it goes, but be imperfect. An artist may paint perfectly the body of a man, but if the head is omitted it will be somewhat defective.

And Mr. PARTON has at last "done" Pittsburgh. We breathe more freely. Pittsburgh is not extinguished; its fires still burn. We have too much iron and coal to be put out by a single breath. Neither are we highly indignant as were our friends below us last August. He has said much that is true and said it well. What we most regret is that he could not have seen more of our surroundings; our elegant suburban residences, and come in contact with more of our citizens, in different professions, some of our preachers and scholars, and then we might have had some slight allusion to the immaterial. We have some men of mark here, and give some attention to the culture of the mind and heart—have some educational institutions or the greater the shame. We are not, in this respect, by any means what we wish we were. But we have in our JACOBUS and HODGE men, as well known abroad at least as Rev. Mr. MAYO. It is a singular fact that comparatively few of our citizens know what institutions we have in our cities. For the benefit, therefore, of our people, as well as for the information of our friends abroad, we regret the complete silence on this subject. From all Mr. PARTON'S writings we are led to believe that the theatre, however low, better suits his taste than the sanctuary. Had he visited some of our houses of worship, he might have seen many men who "appear to take the slightest interest in their clothes," and "many pair of yellow kids which have remained so more than ten minutes." The graphic description of the view seen from Cliff street does not surprise us. Other men would have seen other things. Besides our beautiful Cemetery, our Arsenal, our Prison, our Copper and Steel Works, we have our three Theological Seminaries, one of them one of the largest in our country; our telescope, the same in size as the famous one in the Dudley Observatory, and of the same make; our School of Design, our University, and our Female College, large and flourishing.

Strangers will smile at the "hackmen who demand the exact fair by law established," and citizens, when told that the necessaries of life are "cheaper here than in any other city east or west," will say they "cannot see it."

But Mr. PARTON did very well with the materials he had. We wish he had had more and some of a different kind.

SQUELCHING OUT FENIANISM.

During the rebellion in the United States the character of the leaders therein, and the depth to which their passions were stirred, found accurate admeasurement in the means to which they resorted to gain their ends. When they stooped to incendiarism, to assassination, to the dissemination of pestilential diseases, to the massacre of foes engaged in legitimate warfare, and to the systematic starvation of disarmed and helpless prisoners, it was known and understood of all men that they were thoroughly in earnest, and that in respect to civilization they nearly touched the verge of barbarism.

In Great Britain the Fenian Brotherhood are exhibiting similar characteristics. That they feel a profound consciousness of wrongs endured and are resolved, if not upon redress, then at least upon revenge, and by any means, no matter how atrocious, are facts altogether undeniable. It does not follow because men feel that they are wronged, that they are so. Men are notoriously bad judges in all cases in which they are interested. Passions, prejudices, ambitions, rise up like clouds, obscuring the light of reason, when men undertake to determine how far their rights are impigned and by what instrumentalities they may vindicate these pretensions.

The majority of the men who constitute the Fenian Brotherhood, whether in the United States or in Europe, are addicted to crimes of violence. In this country, as the records of the courts everywhere attest, they are guilty of full half of all the crimes of this description that are committed. No reasonable man asks or expects that they shall deport themselves better than the average of the people among whom they live; but this comparative monopoly of offences which they assert, especially of violence towards persons and properties, necessarily subjects them to harsh admadversions. It constitutes the excuse or justification which the English government and people constantly plead for the severities manifest in their policy towards Ireland.

Nor ought it to escape notice in this connection that the executions which the English government has enforced of convicted Fenians, have not disclosed the tendency expected therefrom. It was supposed that when the rigor of the authorities was aroused, and that the gallows had claimed and embraced its victims, such terror would be struck into the hearts of the disaffected inhabitants as would cause them to quail. This supposition has been disappointed. This was foreseen by those who had carefully analyzed the effect of fear upon human conduct. It may, indeed, be possible to institute a system of governmental terrorism that shall absolutely appall those against whom it is directed; but, if possible, such a system must necessarily be so horrible as to affright everybody else. This prevents the carrying of such a design into effect in modern days. Even in ancient times when brutality was the rule rather than the exception, conquerors found it difficult to restrain subjected population, and often resorted to the plan of sweeping a whole nation into captivity, and planting the denuded territory with new inhabitants. Napoleon I. smote nations not only with the terror of his military genius, but with horrible cruelties designed to crush all sense of independence. What he did himself, he commanded his lieutenants to do likewise. But these brutalities did not prevent nations from striking him in turn. Russia has resorted to infamous barbarities to crush the spirit of Poland; but at frequent intervals that heroic people make giant efforts to break their fetters. Robespierre and his associates did the worst the modern world has witnessed to silence dissent and make people acquiesce; but their enormities led them all to the guillotine.

Whether Great Britain will profit by these instances, or disregard them to her cost, is yet an unsolved problem. The majority of her people seem to be wiser than her government, and may instill some portion of their wisdom into the rulers.

MESSAGE OF GOV. MITCHELL OF NEW MEXICO.

We have before us, in a neat pamphlet, printed at the office of the Santa Fe *Weekly Gazette*, the first annual message of Governor Robt. B. Mitchell, delivered before the Legislative Assembly of the Territory of New Mexico. It is a well written and interesting document, and gives a full and comprehensive view of the various interests of that important territory, with which, we hope ere long to be brought into closer social and commercial relations than we have heretofore enjoyed.

Of the Union Pacific Railway, Eastern Division the Governor speaks at length, and in cheering and hopeful terms. "The building of this road through the Territory (he says) will give it new life. We are now at least a century behind the progressive age of the country in which we form a part, and it is high time we were making rapid strides to overtake those portions of our common country which have been more favored with the facilities of progression." He asks the Legislature to memorialize Congress at the present session to give to this company the same aid as has been given to other roads across the Continent.

Speaking of the route as just surveyed, he says:

"The present survey starts at Fort Wallace [on the Smoky Hill] and reaches Fort Lyon at the mouth of the Purgatoire river, in a distance of 114 miles—thence it follows up the Purgatoire until a proper point is reached for leaving it, to turn the eastern point of the Raton Mountains; after which it crosses the head waters of the Dry Cimarran, also Red River, (usually so called, but really the Canadian) near the mouth of the Little Cimarron, and thence by way of the Wagon Mound to the town of Las Vegas. The first ridges of the Rocky Mountains west of Las Vegas are crossed at the Puertocito by a gap so low that no change is made in the grade of the line, which continues on, crossing the Pecos river about 14 miles above Anton Chico, and thence strikes a nearly direct line towards the Rio Grande, which it crosses a few miles below Albuquerque."

On the subject of agriculture he says:

"The agricultural results of the Territory for the year now about ending have been entirely satisfactory to the husbandmen. The fields have yielded abundant harvests; the granaries of our farmers are filled to overflowing with all the necessaries for the support of themselves and families the coming year. Throughout the entire Territory the crops of wheat, corn, oats, beans, barley, and all the cereals and vegetables have yielded abundantly."

The Governor earnestly recommends to the farmers of the Territory to procure improved agricultural machinery and implements, and speaks of the millions of acres of land yet unoccupied, "equal in all respects to any land in the Territory or elsewhere for agricultural purposes or stock-growing." He speaks of wool-growing as one of the leading interests of New Mexico, "where the population have every natural facility for raising immense herds of sheep at a very trifling expense." He remarks:

"The flocks of the Territory, from the best estimate I am able to make, yield at least two and a half millions of pounds of wool this present year, the larger proportion of which has been transported to the States for sale and manufacture, and what we require is returned to us in its various forms of woolen fabrics for our own use, with transportation added both ways, which we are compelled to pay, together with large profits to the people who are prepared to manufacture one of the staple articles of our Territory. This shipping process costs our people at least five hundred per cent. on the original cost of the wool. This per centage should be retained in the country, and applied to the building of woolen factories in our own Territory."

He mentions the erection of one fine woolen factory, which is now in full and successful operation.

MINES AND MINING.

We quote in full what Governor MITCHELL says under this head. It will be seen that he corroborates all we said on that subject in the GAZETTE of the 16th inst.

"Among the subjects of great interest to the Territory, and to which I desire to call your most earnest consideration, are our mineral resources as a sure means of increasing the material wealth of the masses of the people, and adding to the general prosperity of all classes. There is probably no source of wealth within our reach so accessible as the development of the rich mineral region of that portion of the Rocky Mountains passing through the central portion of our Territory. This continuous range of mountains throughout the entire Territory, is filled with all the precious metals known to this Continent, and of easy access. We have not only the evidences of our present population, of the immense mineral wealth here—but old tradition, history and ancient works, all attest that this was the chief source of revenue to the Spanish Government in past ages; and recent discoveries and exploration and the mining operations now in progress, indicate that in the future also, it will prove to be the most productive. In all parts of the Territory are found veins and deposits of the various useful and precious metals, and in numerous localities may now be seen shafts and drifts, the work of a past people, the record of which is now entirely lost to our generation, and the only monuments left of their energy, activity and industry, are the relics of their stone hammers and excavations scattered over the mineral portions of the Territory.

"For centuries attention has been attracted towards the gold and rich mineral deposits contained in the boundaries of what is now known as the Territory of New Mexico. The theoretical geologist and mineralogist and the practical miner, have alike spoken in praise of the mineral wealth of this portion of the public domain; everywhere from the Raton Mountains of the North to the Mesilla Valley in the South—from the mountains of the East to our extreme western boundary, in every locality is found metalic deposits, and in most places, of paying richness. We have found gold in the "Placers" and in the quartz, in inexhaustible quantities; our placeres are now being successfully worked at Pinos Altos. At the "Placeres" twenty-five miles south of this city; at the Morena mines, near Maxwells, in the county of Mara, and other places. In these localities are gathering large numbers of practical miners, not only from our own territory, but from other territories and States. The constantly increasing population of these localities, and the presence in our midst of large quantities of the precious metals, attest the wealth of this country. The gold-bearing quartz, wherever found, is of great value. Wherever tested with quartz mills, as at Pinos Altos and the "Placeres," it has been found to pay the enterprising miner fabulously. Our ore is a decomposed quartz-easily reduced with the simplest machinery. The veins are wide and free from sulphurets and water—those great obstacles to successful mining elsewhere.

"At Pinos Altos a tunnel, seven hundred feet in length, with proper shafts, has been made; at the Placeres, one tunnel of three hundred feet, with shafts of one hundred and seventy-five feet in depth, has also been constructed. In each, the ore is free from pyrites or sulphurets and the shafts free from water. The character of the ore and mines, the cheapness of fuel and labor, the genial nature of the climate which permits uninterrupted mining during all the months of the year, are already attracting the attention of capitalists, and the rapid development of our mines is now a certainty.

"*Second*—SILVER. We are everywhere surrounded with the evidences of this precious metal, and of the fact that for many years after the settlement of New Mexico, silver-mining was extensive and profitable. The revolution which took place over two hundred years ago, and which resulted in the driving of the early settlers away from this region, ended here for a time, this branch of industry. The natives, jealous of the Spanish race and opposed to the settlement of their country, and recognizing the mines as its principal attraction at that time, filled the ancient shafts with timber and covered them so as to obliterate their locality. The action of the elements and the decay of time have revealed the location of hundreds of these old mines, and many of them have been found of great value. These ancient silver mines have been discovered in all parts of the territory, and constantly new discoveries are being made. In addition to these, new mines in new localities are being found. Public attention having been attracted towards them, we may confidently predict then, that ere long, their development will be energetically prosecuted.

"*Third*—COPPER. It is safe to say nowhere has been discovered richer and larger deposits of this metal than in New Mexico. It is found in all parts of the Territory,—at Maxwell's; near Mora; at the Placeres; at Tijeras, at Manzana, in the Organ Mountains, and the Nacemiento; at Jemas, in the vicinity of Pinos Altos; and elsewhere. Some of these copper mines have been known and worked for nearly a century.

"The Santa Rita del Cobre and Hanover mines, from the immensity of the deposits and the richness of their ore, challenge the world. The successful completion of a rail road to this territory, will give the cheap transportation necessary for the largest results from copper mining.

"Iron and coal have been found in inexhaustible quantities of the best quality along the proposed railroad line. Cinnebar and zinc are also found, but as yet no attention has been given to mining the same. The development of our mineral resources has been heretofore slow. The hostility of the Indian tribes of the territory to encroachment on their ancient hunting grounds, and other causes not now necessary to enumerate, have retarded development; but now the rapid influx of a mining population—numerous, enterprising and courageous, is overcoming these difficulties, and we are just beginning to feel the advantage which must result to us when the development assumes the proportions usual in a mineral country."

An Aged Woman Arrested on a Charge of Murder.

The Newark (N. J.) *Courier*, of Monday evening, says:

Sheriff Ward, of Sussex county, proceeded to a point in the Sparta mountain, near the village of Sparta, this forenoon, and arrested and conveyed to the Newton jail, an aged woman named Lozier, on a charge of having murdered a girl twelve years of age, who had been in her employ as a servant.

It appears that about two weeks since the girl was missed by the immediate neighbors of Mrs. Lozier, and they, knowing her violent temper, at once suspected something wrong. On being questioned as to the whereabouts of the girl she gave conflicting statements, telling some that "the Lord had taken her away," and others that "some rowdies had persuaded her off." These improbable stories served to augment the suspicions already entertained in regard to the matter, and yesterday, it is said, such facts were brought to light as warranted an investigation of the premises occupied by Mrs. Lozier, and her arrest today upon the serious charge of murder. It was rumored in Newton this morning that the body of the girl had been found buried in the cellar of Mrs. Lozier's house, where it is believed to have been secreted by the murderess.

The woman, who is over sixty years of age, is said to have shown but little emotion, when taken into custody, and accompanied Sheriff Ward without difficulty. The affair will at once be thoroughly investigated, and we hope by to-morrow to be able to give full details of the result.

The Great Pictorial Annual.

Hostetter's United States Almanac, for 1868, for distribution, gratis, throughout the United States and all civilized countries of the Western Hemisphere, will be published about the first of January, and all who wish to understand the true philosophy of health should read and ponder the valuable suggestions it contains. In addition to an admirable medical treatise on the causes, prevention and cure of a great variety of diseases, it embraces a large amount of information interesting to the mercantile, mechanic, the miner, the farmer, the planter, and professional man; and the calculations have been made for such meridians and latitudes as are most available for accurate and comprehensive NATIONAL CALENDAR.

The nature, uses and extraordinary sanitary effects of HOSTETTER'S STOMACH BITTERS, the staple tonic and alterative of more than half the Christian world, are fully set forth in its pages, which are interspersed with pictorial illustrations, valuable recipes for the household and family, numerous anecdotes, and other instructive and amusing reading matter, original and selected. Among the A mans to appear with the opening of the year, this will be one of the most useful, and may be had for the asking. Send for copies to the Central Manufactory, at Pittsburgh, Pa., or to the nearest agent for HOSTETTER'S STOMACH BITTERS. The BITTERS are sold in every city, town and village of the United States.

Coughing in Church.

Hundreds of persons destroy the interest of a whole congregation, by a continued coughing and sneezing, when in church, and frequently interrupt the preacher in his sermon, by a long bark, as unbecoming as it is dangerous to the health of the person himself. This need not be. DR. KEYSER, of Pittsburgh, has prepared a medicine which, although you can't carry it in your pocket, if you will take a dose before going to church, will allay all tickling and irritation of the lungs, and by a perseverance in its use for a day or two, will entirely cure the disease. SO DON'T COUGH ANY MORE IN CHURCH: THINK OF DR. KEYSER and his CHERRY PECTORAL; open your heart strings and purse strings, and you will be a better and happier man, and not be looked upon as one who annoys your neighbors. You can get it at any Druggists.

HEALING WITHOUT DRUGS.

The true curative plan or natural healing art is based entirely upon physiological principles—upon the ACTIVITY OF FUNCTIONS in appropriating or using the LIFE SUSTAINERS, and their nutrient value being assimilated in a manner that is potent in the BANISHMENT OF DISEASE from the system. But before we can heal through the inherent vital properties of the tissues, we bring the RATIONAL MATERIA MEDICA to bear, in DRAWING OUT THE DISEASE MEDICINES, and morbid materials through the activity of the decorating channels, cautery process of salary vaporization, by which the system is bountifully supplied. But when these are either obstructed or not understood, the penalty is the same; therefore instead of quaking lest we die before we have gained more money than we can use, it is our highest policy to learn first the laws of righteousness in the bodily tabernacle, in order that we may live to inherit our natural wealth of happiness. By our normal tonics, alteratives, stimulants, sedatives, &c., we get the FRIENDLY changes of vital action, without the corrosive wounds inflicted by drugs. By a correct dealing with causes in the province of disease, we eradicate the whole catalogue of parasites, among which are tape worm, erratic worm, &c.; also, tumors, cancers, ulcers, abscesses, dropsy, insanity, diseases of the bones or nabilities, onanism and fruitless coitus, deafness, liver complaint, dyspepsia, gout, rheumatism, neuralgia, and in short every disease that flesh is heir to, provided our remedial plan is strictly adhered to. We do not expect to please all. But those who have been the victims of the empyrealism and ingenious lingo of similia similibus curantur, and contraria contrariis curantur practice; and now with PHYSICAL MEDICINE, in the shape of electricity, CAN DO NO HARM. Natura Medicatrix Natura Method, by giving us a call, at No. 80 CENTRE AVENUE, Pittsburgh.

PIANO AND ORGAN.

SCHOMACKER'S

GOLD MEDAL PIANO,

AND

ESTEY'S COTTAGE ORGAN.

THE SCHOMACKER PIANO combines all the latest valuable improvements known in the construction of a first class instrument, and has always been awarded the highest premium wherever exhibited.

ITS TONE IS FULL, SONOROUS AND SWEET.

The Workmanship, for durability and beauty, surpass all others.

Prices from $300 to $750, (according to style and finish,) cheaper than all other so-called first class Pianos.

ESTEY'S COTTAGE ORGAN

Stands at the head of all reed instruments in producing the most perfect pipe quality of tone of any similar instrument made in the United States. It is simple and compact in construction, and not liable to get out of order.

PALMOUNTER'S PATENT "VOX HUMANA THROAT" TREMOLO is only found in this Organ. Price from $100 to $350. All guaranteed for five years.

The Pittsburgh Gazette

FACTS.

—Cholera has reappeared in Prussia.

—Rochester, New York, has a Grant Club.

—Sweden is about to send a Consul General to China.

—One of the brightest lights of science—Magnesium.

—The oldest inhabitant of Pittsford, New York is sixty-two.

—Delaware newspapers complain loudly of Delaware schools.

—A convention of planters has been called to meet in Selma, Alabama.

—More than a thousand men are employed in the manufactories of Dubuque.

—The Harvard boat crew think of challenging that of Oxford, England, to a race.

—A Boston man uses his teeth to kill rats with. He is a regular *terrier* to the rats.

—The Presbyterians are going to establish a female college at Abingdon, W. Va.

—The destitution and consequent despair seem to be on the increase in the South.

—The iron work for A. T. Stewart's new warehouse will cost three hundred thousand dollars.

—45,000 people have already witnessed the new spectacular play of "Undine," in Chicago.

—Temperance revivals are going on in all the villages and towns of Wyoming county, New York.

—The Vicksburg *Republican* was dressed in mourning for General Maltby, late Mayor of that city.

—The failure of the potatoe crop and the unusually heavy snows have caused great distress in Galicia.

—The wells in Hillsdale, Michigan, are dry, and the ground is frozen too hard for the people to dig new ones.

—The Old Colony Railroad, in Massachusetts, was seven thousand dollars out of pocket by the late snow storm.

—The American Missionary Association of Chicago received $2,500 a piece from two gentlemen, for Christmas gifts.

—An old sailor in a Massachusetts poor house once took dinner with Gen. Washington. His name is Moses Nye.

—Ten thousand dollars have been voted for the purchase of a steam fire engine by the people of Cedar Rapids, Iowa.

—Six thousand dollars have been subscribed by the citizens of Augusta, Me., for the support of a good school for girls.

—A bill to repeal the prohibitory liquor law will be presented to the Massachusetts Legislature as soon as it opens.

—The Mississippi Valley Navigation Company is almost organized. New Orleans has received the project with much favor.

—Nearly a thousand letters with photographs were received in Boston in reply to an advertisement for a wife "for a man of means."

—One hundred and ninety-one horses were slaughtered for human food in Verviers, Belgium, during the first three quarters of this year.

—Joseph Scharf, of Chicago, hung himself in his own cellar, in the afternoon, after having eaten his Christmas dinner with his family.

—Two thousand pairs of rubber boots and shoes per day are made by $500,000 worth of machinery in the Candee rubber factory of New Haven.

—A little boy, only seventeen months old, succeeded in getting a phial of creosote and swallowing it, on Christmas day, in Chicago. He died.

—Polish druggists are obliged to use the Russian language in describing their drugs after the first of January next. Latin and Polish are contraband.

—The London *Spectator* has a criticism on "Norwood" which can hardly plesse Mr. Beecher, whose success as a novelist does not not seem to be established.

—The school board of Elmira, N. Y., has prohibited all unvaccinated children from attending school. It at the same time gives them all an opportunity to be vaccinated free of charge.

—A father in New York received the pardon of his son, for a Christmas present, from Governor Fenton. The young man was sentenced last January for ten years, for embezzlement.

—A Judge in Wisconsin forgot the time he had appointed for the meeting of Court, and arrived an hour after time, only to find the Court adjourned and no one left in the neighborhood.

—A citizen of Chicago recently paid $10,000 for a set of bed-room furniture in New York. A pair of arm chairs is for sale, at the same shop where this set was sold, at the moderate price of $2,500.

—The Vermont Legislature has passed an act which is thoroughly bovine. It is to prevent paupers putting themselves on towns to which they do not belong. The offence is to punished with a *fine*.

—The professors of the Harvard Medical College dined with their pupils at the Revere House, Boston, on Friday, and spent the evening in social conversation and singing. Some of the brightest lights of science were invited guests.

—On Christmas day a young man, named Edward Wilder, attempted to jump from the fore car of a train to the tender and fell on the track. The whole train, consisting of nineteen cars, passed over him. It was a freight train on the Chicago and Great Eastern Road.

PERSONAL.

—Mazini is dangerously ill.

—*Le Nord* says Col. Kelly has taken refuge in Belgium.

—Thirty-three thousand persons reside in Leavenworth, Kansas.

—Mr. Oscanyan is to lecture on the Orient, in Keokuk, this winter.

—Fanny Kemble Butler will give readings in Boston in January.

—A bear weighing 360 pounds was recently shot in Lewis county, Ky.

—A brilliant meteor was seen at Weymouth, Mass., on Saturday evening.

—A woman in Illinois recently sold her husband to another woman for $120.

—The venerable Signor Blitz is still disbolizing, although this is said to be his last season.

—Betty and Emily Rigl, the danseuses, are the stars of the Black Crook troupe in New Orleans.

—Albert Smith, a freedman, has been appointed justice of the peace in Tuscaloosa, Ala., by Gen. Pope.

—Mrs. Jenny Van Zandt, the renowned cantatrice, is a daughter of Signor Blitz. She is now singing in Milan.

—Although the times are very hard in exas, there is plenty of food throughout the State, and no danger of famine or starvation.

—The physicians of Meridian, Miss., have entered into an agreement not to render professional services to any one who refuses to pay.

—Rev. James Hamilton, D.D., and author of several widely read religious books, is dead. He was pastor of a Scotch Presbyterian Church in London.

—An unusual number of centenarians seem to have been dying this year. Mrs. Christine Barclay, aged 102 years, born in Philadelphia and died in Kentucky, is the last of whom we have heard.

—Mr. Jacob Barker is before the Bankrupt's Court in New Orleans. This, so many times an ex-millionaire, is going to try and retrieve his fortunes once again, although past eighty years of age.

—The late George W. Kendal, who so long and ably conducted the New Orleans *Picayune*, said in his last letter, that he had never been to school ten months in his life. He did better. He went to a printing office.

THE COURTS.

United States District Court—Judge McCandless.

Saturday morning a petition was presented from Robert Hercy, asking to be released from arrest. The petition set forth that in August, 1867, he filed a petition in bankruptcy, and that his effects are now in the hands of an assignee, awaiting adjudication under the Bankruptcy Act. He further states that he was arrested on a capias issued from the District Court of Allegheny county, at the instance of James Bradley, of Louisville, by whom an action had been brought in that Court to recover a sum of money alleged to be due. That subsequently Bradley made proof of his claim before the Register in Bankruptcy in the Twenty-Third District, and that he, the petitioner, gave approved bail on the capias. The petitioner further stated that yesterday he was again arrested on a bail piece, and was now in the custody of the Sheriff and jailor. He therefore prayed to be released from arrest under the provisions of the bankrupt act, and that the proceedings in the action brought by Mr. Bradley be stayed. The Court ordered the release of the prisoner, but gave the plaintiff Bradley leave to liquidate his claim for damages, if any existed, by the action instituted in the District Court of Allegheny.

District Court.

Judges Hampton and Williams were on the bench, on Saturday, hearing motions, &c. Nothing of general interest transpired. The Court meets to-day at ten o'clock.

Common Pleas, &c.

A full bench was present for the transaction of miscellaneous business.

In the Quarter Sessions James Burns, the lad who plead guilty to three indictments for larceny, was called up for sentence, when he was committed to the House of Refuge. The Court remarked that sentence would be suspended on one of the indictments, but intimated that if he failed to give evidence of improvement while an inmate of that institution, a severer punishment would be inflicted.

Michael Hogle, convicted of assault and battery, was sentenced to pay a fine of ten dollars and costs.

The same defendant and Frank Hogle, also for assault and battery, were each sentenced to pay a fine of twenty dollars and costs.

William Ward, Sr., and William Ward, Jr., for forcible entry and detainer, were sentenced to pay a fine of six cents and costs.

Mary J. Brown vs. William Brown. Petition for divorce. Filed and subpœna awarded.

It was ordered that three thousand sober, intelligent, judicial persons be selected from the qualified electors of the county at large, to serve as jurors in the several courts of the county during the ensuing year.

Adjourned until Thursday, January 2, 1868.

Christmas at Steubenville Seminary.

EDITORS GAZETTE—"Merry Christmas" was early heard by all the dwellers in this flourishing Seminary. The pattering of feet were heard through every hall, pulling an end to all sleep. Had those many sweet and melodious voices been heard later in the grey, early dawn, it would have been more agreeable. I soon found it was the awaking which knows no sleep. The warm greetings and loud laughs from those merry girls for one day free from school rules, quite old in a measure from school restraints, were heard on every hand. Life and activity were the order of the day. This was no place, I soon found, for long faces and homesick sighs. Every face I met was bright, cheerful and happy. All tendency to headache and mental depression, to which many are subject, would have been at once removed by the busy activity all around.

At three o'clock the parlors were well filled with invited guests, teachers and scholars. Pleasant, indeed, was the morning conversation was indulged in till summoned to the dining hall, where such a display of the good things accustomed to be seen on this festal day was exhibited as would greatly modify the united ideas entertained by many of boarding school fare, and here, from my own experience, I may say that good living is not seen in this venerable seminary once a year merely, but almost every day. All were so merry that the still hours at the table passed like a dream, and, as is usual when the inner man is satisfied, all were in a good humor with themselves and all around them.

If the young ladies in that Institution will but learn to serve a dinner as elegantly as the one to which I was a partook of, on that memorable day, there will be fewer "grouby and fussy husbands" and more happy homes when they become established under their own vines and fig trees. And here comes in another bit of advice—never ask a favor of a man after a pour half cooked dinner. You will be sure to receive a "no, my dear." We passed from the dining hall to the young ladies' parlor, where stood a large tree reaching from the ceiling to the floor, well lighted and well filled with things that pleased the eye and delight the palate. Why is it that all the good things of this life are so apt to come in showers, leaving time between them for a long draught. Why do we ourselves often manage it so? I leave that for you to ponder over. After the eyes were satisfied, the gifts were taken from the tree, and no one was forgotten in the distribution. Much merriment was caused by the reading of the descriptions and the remarks of the acting Kriss Kringle. Music, promenading and conversation followed, but the end was not yet. In a short space of time we found ourselves seated in the large and pleasant school hall, awaiting the rising of the curtain, which hid so many mysteries from our inquiring eyes. But I cannot stop to give a full account of our entertainment there. Two well acted characters and many tableaux with songs made the evening pass quickly. Among the tableaux was one entitled, "One of the Heads of the Freedmen's Bureau." We patiently waited for the curtain to rise, expecting to see a nicely painted portrait or a finely sculptured bust of some of our famous men in Washington. Finally, the bell tapped, but the curtain moved not, and what was our astonishment to see peeping from the side of the curtain the smiling face of a gentleman of African descent. Another entitled "Beatrice," which consisted of two scenes, was very pretty. Indeed, all were well done, and the young ladies deserve much praise for the creditable manner in which the performances were conducted.

Thus passed my first Christmas in this prosperous institution, where are many happy girls. And from what we have seen on other days, we believe that they not only have good dinners, but are well and thoroughly taught in everything that will fit them to be intelligent, accomplished and true women.

The Great Western Gun Works—Re-opening at No. 250 Liberty Street, With an Entire New Stock.

Mr. J. H. Johnston, proprietor of the Great Western Gun Works, recently destroyed by fire, respectfully announces to his friends and the public generally that he has secured the commodious sales room, No. 250 Liberty street, in the Academy of Music building, and reopened his business with an elegant, large and judiciously selected stock of new goods. The stock embraces guns, pistols, revolvers, carbines, rifles and all the accoutrements known by sporting men. The rifles and shot guns in store, suitable for hunting purposes, are very superior, and are offered to the wholesale and retail trade at remarkably cheap prices. Mr. Johnston's stock of fixed ammunition, powder cases, cartridges, hunting pouches, flasks, &c., will commend itself to those desiring to purchase anything in the line. We trust that our readers will not fail giving the Great Western Gun Works, at their new quarters, a purchasing visit.

An Acceptable Present.

Nothing could so please the heart of a smoker than a Christmas present in the way of an elegant meerschaum, cigar tube, tobacco pouch or a box of delicious Havana cigars. Mr. G. Blumenschein, No. 4 Seventh street, has an elegant assortment of Meerschaum Pipes, Tubes, Cigar Cases, Snuff Boxes, Burwood and Clay Pipes, &c. Besides, he has a large stock of cigars and tobacco, of all the favorite brands. The stock is being sold off at very low prices, and devotees of the weed, who desire a good cigar, or choice brand of chewing tobacco, will find Blumenschein not only willing but fully prepared to supply their wants. It may be proper to state that the Meerschaum Pipes, some of which are of handsome designs, are warranted genuine, so that parties purchasing may rely upon obtaining to such a pipe as the proprietor represents.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, December 28, 1867.

—The shrinkage in commercial values, on the score of contraction at least, seems to have been checked, and holders of desirable merchandise are canvoling themselves with the idea that, though trade remains in abeyance, prices have apparently touched bottom. The Federal Treasury is now making heavy disbursements, on interest account, both of gold and currency; and, but for the increased shipments of the former, consequent upon the high ruling of exchange and falling off in our export trade, the premium would probably fall to a much lower figure.

—Discounts are working more freely in New York. The banks are making loans upon call in some cases upon choice collaterals at a per cent., and the street rate for prime paper is about 8 per c t.

—The Western money market is very close. Rates at Cincinnati in the open market are five per cent. per month, call loans at 12 per cent. In Chicago currency is very scarce, and depositors have drawn very close. Rates are a little higher there than in Cincinnati. At the South there is less stringency. In New Orleans the banks are discounting freely, but rates are falling off.

—From August 24th to November 30, 1867, Milwaukee received 9,924,969 bushels of wheat (including 290,382 barrels of flour). In the corresponding period of 1866, the receipts were 7,027,907. The increase this year is 2,897,062 bushels.

—Some of the New York papers speak of the cessation of the money market as favoring speculative activity, especially in railway shares. We see it put down that "the earnings for the eleven months ending with November, of fourteen of the principal railway companies averaged $171 per mile more than in the corresponding month of 1866." If this shall prove true on a careful examination of the figures, it is a fact that will do much to bring railway stocks into favor.

—The Philadelphia *Ledger*, of Friday, says: Money is in ample supply at 6 per cent., and in exceptional cases balances are employed at 8 per cent. The disbursements of the Subtreasury, on account of interest and for call on redemption of compound notes, have added to the resources of the banks, which, in consequence, are very limited in their loaning business, has made the money market extremely easy, where the right kind of security is offered. The banks continue to buy sight at the good paper offered. All second class paper is discounted with much difficulty, notwithstanding the admitted full supply of currency. Approaching quarter day, from present indications, will not be by any means a specially exhibit, and with as little effort, probably, as ever before.

—It appears that new phases of rascality are continually coming to light, and even the gold speculators have to look to their laurels. The following resolution was passed a few days ago at the gold room in New York city, in reference to a new species of scoundrelism which it explains:

"Whereas, certain fraudulent telegraphic despatches purporting to give the prices in London quotations of United States bonds in the London market have lately been published and circulated to the detriment of public and private interests,

"Resolved, That a reward of $500 be offered for the detection of any party or parties guilty of sending or receiving such fraudulent dispatches with intent to defraud, and that any person connected with this board who may be found guilty, shall be expelled immediately on conviction."

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, December 28, 1867.

CRUDE—The market has been moderately active during the past week, the sales in the aggregate being larger than for some weeks previous, but prices have undergone little or no change. To-day, there was but a single sale reported, 500 bbls, on spot, at 6¾c. During the early part of the week there were several sales of spot oil at 7c, 7¼c and 7½c, but they were made under peculiar circumstances, and buyers were "short" of oil, and for delivery time was near at hand, they were forced to buy in order to secure themselves. Therefore, 6¾c may now be regarded as the ruling quotation, and even at that, the demand is not active. The river being in excellent condition for navigation, considerable oil arrived to-day in bulk boats, and it is probable that the receipts during the next forty-eight hours will be large. It should be borne in mind, however, that the great proportion of this oil will be put in on old contracts, so that the quantity to be thrown on the market will not be as large as many have been led to believe.

REFINED—There is no improvement, we regret to state, to note in the market for bonded oil, and while the volume of business, in the aggregate, is comparatively insignificant, prices are without decided change. Spot oil is still quoted at 22c for standard white delivered in Philadelphia, while 21c is offered to about sixteen cents, free on board cars here. During the week two "lines" were sold at 23½c for January; 24c for February; and 24½c for March, and, we presume, that the same deliveries would still command these figures. It is possible, as money matters are working much easier in the east, that an improvement is near at hand, and oil, one would think, is certainly a safe investment at prevailing prices. There is a fair jobbing demand for free oil, but the transactions are mainly of insignificant character, and prices are entirely nominal.

ARRIVALS—The arrivals of oil by river to-day, were as follows:

S. D. Cochran	4500
Mawhinney & Bro.	1260
Miller & Boyle	2000
J. B. Sneathen	5241
Fisher & Bro.	3409
Jackson & Bro.	4000

Cincinnati Market.

[By Telegraph to the Pittsburgh Gazette.]

CINCINNATI, Dec. 28.—Flour unchanged, dull and the demand quite light; family $10.75@11. Wheat in light supply and in fair demand, at $2.50 for No. 1 red and white. Corn quiet; sales of new ear, at 94c, and shelled 90c; there is a shipping demand for the latter from the east. Oats dull, at 46c. Barley in good demand, at $1.80@1.70 for fall. Cotton unchanged and in moderate demand, at 13½c for middling. Whisky at $2.28 in bond. Hogs in better demand; sales at $6@6.75 gross, and $7.50@8.25 net; receipts of 1,200 head. Provisions unchanged and quiet. Sales 500 bbls old mess pork at $19.50; new held at $21, and more firmly. Bulk meats nominally unchanged. Lard in demand, at 12c, held at 12¼c; country sold at 12c; steam lead lard sold at 11½c. Bacon dull, shoulders 9½c; sides 13½c; clear sides 13¾c. Nothing doing in green meats and the prices nominal; none in the market. Butter unchanged; fresh Ohio 33@35c. Eggs in better supply and lower; closing at 32c. Clover seed dull and the prices declining; nothing but a retail demand, at 12¼@12½c. Timothy and flax unchanged and quiet. Linseed oil held at $1.05 generally, but buyers are not willing to pay this price; the stock here, with the crushers in the interior, is large, owing to the unusually large crop of seed raised this year, and the light consumptive demand. Lard oil firm, at $1@1.10. Pig iron dull, at 45@45c for refined free. Hay dull, at $18@17. Gold 138¾ buying, and 134 selling. The demand for money has fallen off and the market is easier. Exchange firm, at par buying.

St. Louis Market.

[By Telegraph to the Pittsburgh Gazette.]

St. Louis, December 28.—Tobacco very little doing and prices unchanged. Cotton nominal, at 12c. Flour remains quiet, but with a very small business; superfine $5.50@7.50; extra $8.50; double and treble extra $9@11.50. Wheat lower; sales at $2.35@2.75 for prime to choice; fall and spring entirely nominal; sales at $1.85@1.95 for prime to choice. Corn inactive with sales at 86@90c for shelled and 70@77c in the ear, the latter on the track. Oats higher with slow sales at 50@53c. Barley unchanged; sales at 82@2.05. Rye, no sales; buyers offering $1.59 Provisions dull and weak with small trade. Lard dull. Pork $21.00. Bacon, shoulders 10@10½c; clear rib 12½c, clear sides 13c, the latter can be bought at 12½c. Sugar cured hams 16@17c, dry salted shoulders 7¾c; clear sides packed 11c. Hogs in better demand, buying at $5@5.50 for light and heavy. There was during the week 15,200 packed and up to the present date 230,000. Receipts—1,400 bbls of flour, 1,000 sacks of wheat, 2,000 bus of corn, 300 bus of oats, 6,00 bus of barley and 500 bus of rye.

New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, Dec. 28.—The Dry Goods market is very dull and jobbers and the trade are mostly taking stock. In prices there is no particular change aside from those noticed yesterday. Light and irregular makes of bleached and unbleached muslins are depressed as are printed Calicoes, but heavy Brown Sheetings, Canton Flannels and delaines maintained their prices with increased firmness. Woolens of all kinds and Imported Goods are lacking in activity, and buoyancy. Some western failures are reported to-day which have had a bad effect.

Chicago Cattle Market.

[By Telegraph to the Pittsburgh Gazette.]

CHICAGO, December 28.—Live Hogs moderately active at $6.90@7.15 for best grades and $6.25@6.75 for common to medium grades. Beef Cattle unchanged.

Merchants and manufacturers will find it to their interest to give us a call before ordering Lard Oil from the West. s1tf

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, December 28, 1867.

The general market has been about as dull as usual during the past week, but we have strong hopes, that with a full resumption of navigation, heavy shipments of coal and Pittsburgh manufactures generally, that a state of real improvement is near at hand. One thing is certain, money matters will be easier, and this has been a great drawback to business for some time past. In values, there have been no violent fluctuations, but, as a general thing, the tendency is downward.

GRAIN—Winter Wheat is in steady demand, and the mills are taking all that offers at $2.50 @2.65 for Red, and $2.60@2.65 for White. There is no demand for Spring Wheat in this market. Corn is dull and weak, with a tendency downward; new cannot be quoted above $1@1.05, and old at $1.15@1.18. Oats dull and lower; sale of 1 car at 53½c—dealers do not seem disposed to pay above 50c. Barley is in good demand at $1.60@1.65. Rye is in better demand; sales at $1.40.

FLOUR—While there is no improvement to note in the demand, the market is dull, but prices are unchanged. We quote at $10@10.75 for Spring; $11.50@12.50 for Winter, and $14.50@ 15.50 for family brands. Rye Flour, $8.50 per bbl, and Buckwheat $6.50 per cwt. Cornmeal, $1.40 per cwt.

MILL FEED—Is dull, and in pretty good supply but unchanged; we continue to quote at $1.60@1.65 for Bran; $1.75@1.85 for Seconds, and $2.25@2.30 for Middlings.

DRESSED FRUIT—Continues dull but unchanged; small sales at 7¼@8c for Apples, and 10@12c for Peaches.

APPLES—Notwithstanding the demand has fallen off a little and the receipts are increasing, prices, as yet, are unchanged, ranging from $3 to $4.50 per bbl, as to quality.

POTATOES—There were "short" sales at $1@ 1.10 per bushel, and $1.25@1.50 per barrel.

BUTTER—Prime to choice Roll is in fair demand, and may be quoted at 38@42c.

EGGS—Scarce and held higher—some holders are asking 40c, but quotations may be given at 36@37c.

HAGS—Are steady but unchanged; we continue to quote at 11½@12c for Shoulders; 12@13½ for Ribbed Sides; and 17½@18c for Sugar Cured Hams.

LARD—Is quoted at 12@13½c.

LARD OIL—Is still quoted by manufacturers at 88@90c for No. 2, and $1.10@1.12 for No. 1.

BEANS—Are quoted at $2.25@2.35.

HOMINY—Dull at $4.50@4.75.

CRANBERRIES—Dull at $12@13.

New York Produce Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, December 28.—Cotton a shade firmer; sales of 1,000 bales at 29½c for middling uplands. Flour; receipts 7,075 bbls; common 5@10c lower; sales of 5,900 bbls, at $8.30@9.60 for shipping brands; $9.70@10.55 for extra State; $9.30@12.00 for extra western; $10.60@12.00 for choice do; $9.70@10.50 for R. H. O.; $10@11 for common to good St. Louis, and $11@16 for good to choice do; $9.30@10.50 for Southern, closing steady; sales of 250 bbls at $7.50@9.50 California flour quiet; sales of 150 sacks, at $10.50@11.50. Rye flour, $6.50@7.50. Corn meal steady; Brandywine, $4.75@5.00. Wheat; receipts 100 bush; market rather more active but without decided change; sales of 5,700 bush at $2.60@2.70 for No. 2 spring; $2.95@2.97 for red and amber Jersey; $3.10@3.12 for red winter; $3.20@3.25 for Southern, and $3.10 for new white California. Rye steady; sales of 10,000 bush State at $1.35. Barley quiet and unchanged.
